

Testimonials for Dee Ann Stricklett Leadership Consulting

Dee Ann Stricklett recently led a **team building** session at our Eastern District 2019 Kick-Off. The entire staff was randomly divided into seven groups of 30, to experience various types of team building opportunities. In Dee's session, groups were given deep meaningful questions to discuss and consider. Her questions generated rich conversations – valuing the viewpoints/opinions of every staff member. As I walked through the high school that night at Open House, one of the new teachers told me how much she had enjoyed the day. She said, “In the past I have known superintendents who have said that ‘we are a team and everyone’s opinion matters’, but today I saw it in action!” Dee’s session was an integral element in cultivating the idea/feeling that we are a team and that it takes ALL of us to educate our kids!

Michele Filon, Ed.D. Eastern Brown Local Schools, Superintendent

Dee Ann Stricklett is such a dynamic, engaging consultant. We have been lucky to work with her on many projects. She is so passionate about learning and students and gets very excited to share her wealth of knowledge, experience, and strategies with others. Her ideas are actionable and lead to shifts in practice. We recently had Dee Ann lead a team building activity called **The Leadership Experience** with our staff and they really enjoyed it. All of the staff were able to reflect and grow as educators. I highly recommend Dee Ann to work with your leaders.

Katrina J. WagonerRussellville Elementary, Principal

We had the opportunity to use **The Leadership Experience** with our high school basketball players. It was used with various players in our program from freshmen to seniors. The activity gave us much insight to what leadership qualities these young men had and allowed us to develop it to a greater aspect in each individual. This proved very beneficial when we used several young players at the varsity level and they seemed to understand the value of providing leadership to the younger players. **The Leadership Experience** helped develop a team atmosphere with respect for all individuals, made our team chemistry much better and allowed us to get the highest performance from all of our players. This experience provided an opportunity for our players to really know ourselves and our process.
